Office: (717) 359-4511

Fax: (717) 359-8380

Charles G. Kellar
Chief of Police

To: All Borough Residents:

Over the past several days there appears to be a batch of illegal drugs that have hit the streets in South Central Pa. Over the past weekend multiple over doses have occurred which has also resulted in multiple deaths . Apparently from what we know so far, it is laced in cocaine and some sort of packaged synthetic that has yet to be identified. Law enforcement and Health care personnel are working to try to identify the substance as well as it origin in an attempt to get is off the street before any further deaths occur. That being said, addiction to illegal substance is a fact and it occurs for a lot of reasons. I am not issuing this notice to judge anyone, our purpose is to warn the public that this stuff is out there and it can cause death or serious injury. If you would come in contact with this substance either on purpose or by accident due to a family member of friend that may have over dosed. It is possible you could fall victim to this if you would accidentally breath it in or get it on your hands. We would anticipate it will have dire consequences if a small child would be accidentally exposed to this. If you suffer from addiction we urge you to seek professional help, multiple avenues of assistance are available free of charge to get you help you need. If you have a family member or know someone that is suffering form addition, please make sure they are aware this stuff is currently on the streets. Obviously we are asking for the public assistance to help identify this dangerous substance before anyone loses their life and we urge you to contact law enforcement officials if you have any knowledge or the source of this substance. All information provided will remain confidential.
